SUMMARY

Computer Science student at BIT Durg with a focus on AI and Full-Stack development. I am a fast learner and proactive problem-solver, as demonstrated by my journey from building healthcare apps to competing as an SIH 2025 Finalist. I am excited to apply my technical skills in a collaborative environment where I can contribute to impactful software while continuously expanding my knowledge.

EDUCATION

B.Tech in Computer Science and Engineering 2023 – 2027
Bhilai Institute of Technology (BIT), Durg, CGPI: 7.86 Durg

PROJECTS

Auth Kavatch

- Developed a security engine using an Isolation Forest model to detect and mitigate Credential Stuffing and automated bot attacks using **Python, Scikit-learn, FastAPI, Node.js, Render**.
- Engineered a FastAPI microservice to analyze login velocity, device fingerprints, and IP reputation, providing real-time risk scoring.
- Implemented feature engineering for human-vs-bot differentiation, including typing speed analysis and honeypot triggers.
- Integrated with a Node.js backend to return dynamic actions: ALLOW, MFA, or BLOCK based on risk scores.

ArogyaConnect

- Developed a MERN stack application specifically for healthcare accessibility in tier-3 cities.
- Integrated PyTorch models for AI-driven vital sign tracking and utilized Three.js for interactive human models.

Driver Drowsiness and Distraction Detection

- Engineered a real-time monitoring system using MediaPipe and heuristic computer vision techniques.
- Implemented audio alert mechanisms for low-latency drowsiness detection.

PG Life Website

- Designed a multi-city accommodation discovery platform with user authentication and database integration.
- Utilized Flask/PHP and MySQL for backend logic and database management.

Code Generator - AI Assistant

- Created an LLM-powered coding and debugging tool using Streamlit, LangChain, and Ollama.

SKILLS

Languages: Python, C, C++, SQL

Web Development: HTML, CSS, JavaScript, Flask, FastAPI, Streamlit

Data Science & AI: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

Tools & Platforms: VS Code, AntiGravity, MySQL, Google Colab, Jupyter Notebook, Tableau

Design: Adobe Illustrator, Canva

TRAINING & CERTIFICATIONS

Artificial Intelligence - Acmegrade

Web Development - Internshala Trainings

Introduction to Machine Learning - NPTEL

ACHIEVEMENTS & LEADERSHIP

Winner, E-Summit 2026 Shark Tank 2.0: Presented our Arogya Connect application

Finalist, Smart India Hackathon (SIH) 2025: Developed ML-driven demand forecasting for power grid projects.

Treasurer & Technical Head, Public Speaking Club: Organized club events and managed technical requirements.

HOBBIES & INTERESTS

Bhagwat Geeta, Cricket, Football, Gaming
